 Menna Kotb

PROFILE

Dynamic and driven Frontend Developer and AI enthusiast with a strong foundation in modern web technologies including React.js, JavaScript (ES6+), HTML5, and CSS3. Combines hands-on freelance project delivery with a passion for education — conducting live online programming sessions for international learners, helping students across different countries build real-world development skills.

Currently expanding technical depth in full-stack development and AI integration, with a commitment to writing clean, scalable code and delivering seamless, responsive user experiences. Eager to join a forward-thinking team that values creativity, mentorship, and continuous growth.

PROFESSIONAL EXPERIENCE

Freelancer

04/2024 – Present

Frontend developer

- Designing and developing responsive Web apps using React.js.
- Creating visually appealing and user-friendly layouts for clients.
- Collaborating with clients to understand their requirements and delivered customized solutions.
- Delivering projects on time while maintaining quality standards.

Education

Independent Programming Instructor

01/2025 – present

Online Programming Instructor

- Conduct structured online programming sessions for students from multiple countries, teaching web development fundamentals and Python Programming.
- Communicate complex technical concepts clearly in English to non-native and international students, receiving consistently positive feedback on session quality.
- Support students through code reviews, debugging sessions, and project walkthroughs to accelerate their learning journey.

Founder – Qodeen Academy

11/2025 – Present

- Founded an academy for teaching programming and web development.
- Designed and delivered training programs for students.

Web Master Company

05/2025 – 09/2025

Frontend Trainee

- Participating in an intensive training program focused on mastering the core technologies of modern frontend web development. The program blends theoretical foundations with hands-on project work to build real-world skills.

PROJECTS

HTML-HUB

Educational HTML Resource

Developed a responsive HTML guide page during front-end training, using semantic HTML and Bootstrap for clean layout and accessibility. Strengthened UI skills without using JavaScript.

Ramadan table

Built a responsive Ramadan schedule webpage using semantic HTML, custom CSS, and JavaScript local storage to let users save their progress. Focused on clean layout, readability, and interactive user experience.

Landing_page

Developed responsive landing pages during a Web Master Internship, using semantic HTML, reusable CSS, and Flexbox/Grid for clean, user-friendly layouts across all devices.

Jadoo page

Created a modern, responsive travel agency page (Jadoo) during Web Master internship, using pure CSS for visual hierarchy and component-based layout design.

Movies Website

Built a fully responsive movies browsing web app during the Web Master Internship, featuring categorized listings .

Showcasing strong UI layout and visual design skills.

Tailor Template Website

Developed a modern, responsive tailoring business landing page as a hands-on training project during Level 1 of the ITI Belts program.

Savore Resturant

A responsive web application developed using HTML, CSS, JavaScript, and Bootstrap as part of the ITI Yellow Belt graduation project.

AWARDS

Certificate in the Front-End Development using react <i>Information Technology Institute (ITI)</i>	09/2024
